

## Press Release 01/2007

Another successful year for the virtual reality specialist from Munich

### RTT AG Reports Record Results for the Financial Year 2006

Munich, March 21, 2007 – RTT AG continued its uninterrupted course of expansion into the fourth quarter of the last year, concluding the 2006 financial year with a record result. The preliminary consolidated accounts that include the results from the RTT USA Inc. and RTT Asia-Pacific Inc. subsidiaries show an increase of 48% in annual turnover for 2006 to a record €14.32m (previous year: €9.671m). The net earnings figure also evidences this extremely positive development with an EBITDA figure augmented by 59% to €2.181m (previous year: €1.374m). EBT has also improved by 56% to €1.756m (previous year: €1.122m).

Quarterly comparison also unveils record results. The turnover from the fourth quarter increased by 58% to €4.912m (previous year: €3.101m). The EBITDA figure improved by 99% to €834,000 (previous year: €419,000), and EBT rocketed by 102% to €683,000 (previous year: €337,000).

Continued business expansion in the USA and the establishment of the wholly-owned RTT Asia-Pacific Inc. subsidiary based in Seoul, Korea have made a significant contribution to the total turnover figure. Ongoing development of RTT's core product RTT DeltaGen, technological innovations and the implementation of additional professional services were also key to this highly positive business development. Once again, no other professional 3D visualization supplier in the world gained more customers in 2006 than RTT.

The potential for development is still very high: Apart from the automobile and aircraft industries, high-quality digital 3D modelling is gaining ground in other businesses with special regard to their design, development and sales departments.
