Munich-based VR specialist on a continuous upward trajectory

RTT Kick-starts 2007, Sales Growing by 45%

Munich, May 31, 2007 – RTT AG has made a successful takeoff in the current business year and reports the best first quarter figures in corporate history. The preliminary consolidated accounts, including the figures of both RTT USA Inc. and RTT Asia-Pacific Inc., reveal a 45 percent increase in revenues in the first three months of the current financial year, attaining €4.022m (previous year: €2.765m). Earnings before interest, tax, depreciation and amortization (EBITDA) grew by 62 percent to reach €0.553m in the same period (previous year: €0.343m). EBT rose by 32% in the reporting period to €0.378m (previous year: €0.287m). Operational cash flow is also at a record high; it has rocketed by 182% to €2.376m (previous year: €0.844m).

RTT's amazing growth figures in the first quarter of 2007 can be attributed to a number of reasons. The company's upward ride has been triggered mainly by the extremely positive development of its core business on the one hand, and by the systematic expansion of its US and Asian businesses on the other. RTT USA Inc. and RTT Asia-Pacific Inc. contributed tremendously to the total turnover figure.

RTT management expects business growth to continue dynamically for the rest of the financial year. Another sales boost was the highly positive feedback received for the 8th RTT Conference. Mid-May, more than 350 top designers, virtual reality specialists and marketing experts came to Berlin to exchange experiences and discuss the future of professional 3D visualization.
