

PRESS RELEASE 14/2008

Realtime Technology (RTT) AG has expanded its portfolio of applications for CAD data processing with the acquisition of utilisation and exploitation rights for the software products from the visualisation business Bytes + Lights GmbH

RTT acquires software from Bytes + Lights

Munich, 14 November 2008 – The Munich-based virtual reality (VR) specialists Realtime Technology (RTT) AG today announce the acquisition of utilisation and exploitation rights for all Bytes + Lights GmbH software products. This includes applications for data preparation, technical documentation and virtual photography. The Bytes + Lights software allows designers to rapidly prepare their CAD models for downstream processing. With this purchase, RTT AG is expanding its portfolio of 3D visualisation applications to the fields of PDM integration, geometry processing and automated image generation. In addition, Dr. Gerd Sußner, the geometry processing technology expert from Bytes + Lights GmbH, has been employed by RTT since 1. November 2008.

The founders of Bytes + Lights GmbH began in 2002 with the development of software for the generation of virtual prototypes. The resulting portfolio of applications, consisting of the products Imagovis, Retis, Varius, Corax and Fulgur, allows powerful representation of complex 3D models. Bytes + Lights is mainly active in the areas of "Virtual Garage" and "After-Sales". The software has been used by a German car manufacturer to create graphics for replacement parts catalogues, owner handbooks and service documentation, all based on CAD data.

"With the acquisition of the Bytes + Lights software, RTT has strengthened its operations in the strategically relevant fields of 'CAD/PDM connection', geometry processing and automated image generation," comments Ludwig A. Fuchs, co-founder and member of the RTT AG management board, "we're very pleased to bring additional expertise to our team and expand our technological and product capabilities."

About RTT AG

Realtime Technology AG is a global leader in the provision of 3D realtime visualisation technology and services for industrial applications in the automobile, aeronautical and consumer goods industries, as well as in the field of interior design and architecture. The company supports its customers in their design and development by enabling the virtual representation of various product designs (virtual prototyping) as well as in their sales and marketing by facilitating product presentations that include every model, and additional options too, in showrooms, on the Internet, at trade fairs and at points of sale (virtual marketing).

RTT customers include names such as Adidas, Airbus, Applus Airon Technic, Audi, BASF, Bertrandt, BMW, Carbon Motors Corporation, Chrysler, Dai Nippon Printing (DNP), DaimlerChrysler, Dodge, EADS, EDAG, Fiat, Ferrari, Ford, General Motors, Haku-hodo, Holden, Honda, ICON Aircraft, Inovo Design, Italdesign Giugiaro, Iveco, Jeep, Lamborghini, Lexus, Magna Steyr, Maserati, Maybach, Mazda, Mercedes, Miele, Mitsubishi Electric, Opel, PATAC, Porsche, PSA, Rolls-Royce, Samsung, Scania, Schüco, Serco, Skoda, Sony Ericsson, Steelcase, Suzuki, TERREX, Tesco, Thyssen Krupp, Toppan Printing, Toyota, UCHIDA YOKO, Vauxhall, Volkswagen and Volvo.

The provider of 3D realtime visualisation applications can look back proudly on remarkable corporate development with annual growth of 50% in recent years. RTT currently employs approximately 370 staff in twelve offices. The company headquarters are located in Munich, and the business is represented by further offices in Los Angeles, Detroit, Seoul, Tokyo, Paris, Brussels, Milan, Melbourne, Singapore, Stuttgart and Hamburg.

RTT AG is a public limited company, with its shares being traded on the Frankfurt Open-Market, Xetra, Freiverkehr (OTC) Stuttgart and Freiverkehr (OTC) Berlin-Bremen exchanges: R1T, ISIN: DE0007012205. Further information can be found on the Internet at www.rtt.ag.
